

About Us

Established in 1990, NBG Printographic Machinery Co (P) Ltd., is a leading manufacturer of printing machines located in Faridabad, India. An ISO 9001-2000 certified company with more than 1000 installations across India and 30 countries world wide. A large number of repeat customers ensures the consistent performance of NBG products.

Some of the best brains are engaged in Designing of NBG products using latest 3D software, Equipped with latest CNC, VMC machines and latest equipment the manufacturing division is capable of manufacturing the most complex designs consistently and the quality division equipped with latest testing tools and CMM to ensure all parts and machines are manufactured as per the international standards

STARFlex is a product of years of research and development by the team with latest technologies with top loading of plate cylinders, tool less ink tray loading systems, Pneumatic systems and Servo drives for easy operation and HMI for centralized controls. The sturdy structure and ergonomic design ensures consistent performance of the machine with longevity and high performance in multiple substrates.

1990-2016

Technical Specifications:

Max. Design Speed	200 MPM
Max Working Width	370mm
Max Dia On Unwind	1000 mm
Print repeat range	8" – 24"
Die cutting range	10" – 24"
Sheeting range	8" – 24"
Infeed and out feed	Servo driven
Drive	Mechanical line shaft / Servo drive
Tension control	Electronic tension control

Expanding Possibilities with features like

- Flexo print units
- Offset print units
- Gravure print units
- Auto registration
- Cold foil (Movable on rails)
- Delam – Relam unit (Movable on rails)
- Both side printing with Turn bar (Movable on rails)
- UV / LED / IR / Hot air drying systems as requirement
- Chiller rollers to handle unsupported films
- 3 Cylinder type Rotary die cutting
- Reversible anvil cylinder for die cutting on back side of substrate.
- Digital printing by inkjet
- Carona treader
- Dust cleaner
- Online camera and inspection system

Since 1990

NBG Printographic Machinery Co. (P) Ltd.,

30-31, Ground Floor, World Trade Centre, Babar Road,
Connaught Place, New Delhi 11001

STARflex

Expanding Possibilities

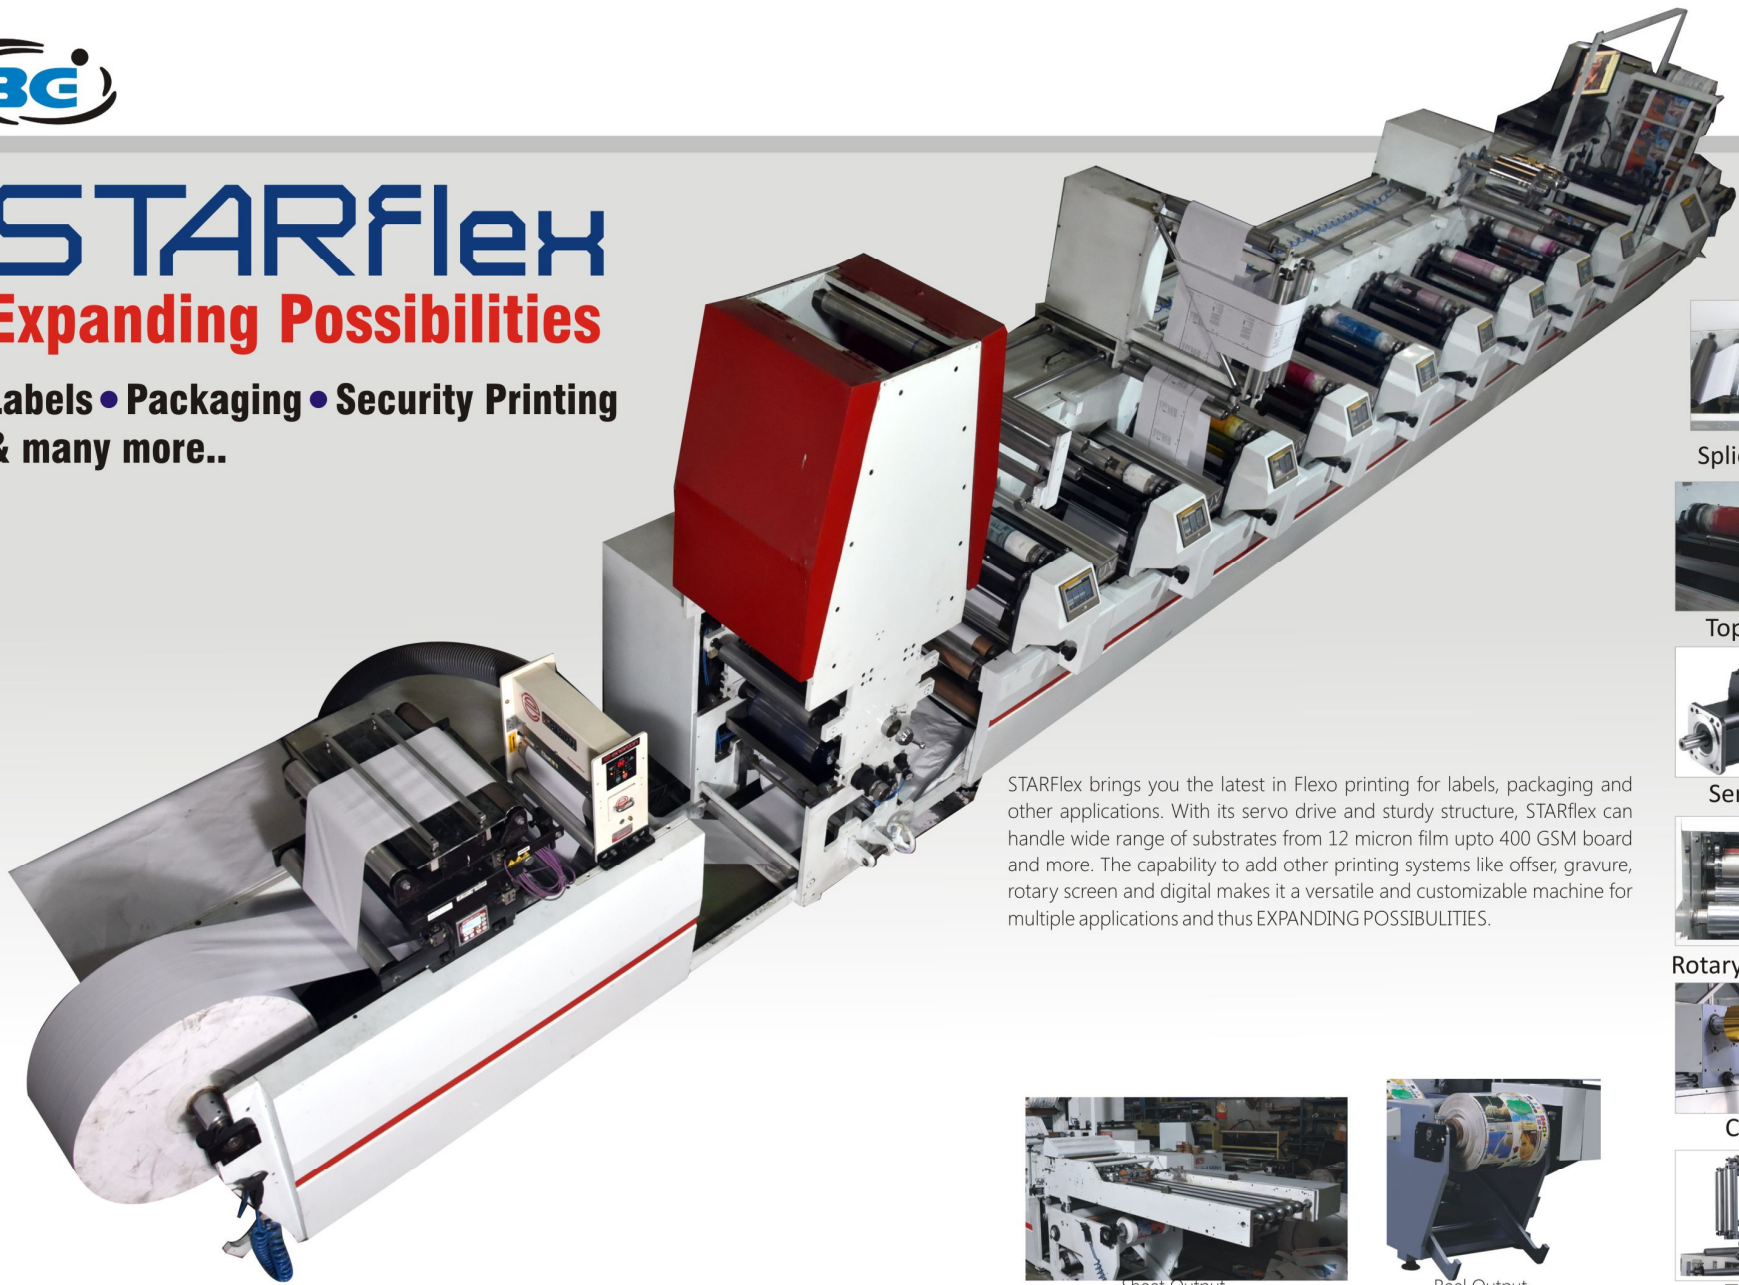

STARflex

Expanding Possibilities

- Labels • Packaging • Security Printing & many more..

STARflex brings you the latest in Flexo printing for labels, packaging and other applications. With its servo drive and sturdy structure, STARflex can handle wide range of substrates from 12 micron film upto 400 GSM board and more. The capability to add other printing systems like offset, gravure, rotary screen and digital makes it a versatile and customizable machine for multiple applications and thus EXPANDING POSSIBILITIES.
